Determination of Patent Term Adjustment under 35 U.S.C. 154 (b)
(application filed on or after May 29, 2000)

The patent term adjustment to date is 0 days. If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the term adjustment will be 0 days.

If a continued prosecution application (CPA) was filed in the above-identified application, the filing date that determines patent term adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) system. (<http://pair.uspto.gov>)

Notice of Fee Increase on January 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after January 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on January 1, 2003. See Revision of Patent and Trademark Fees for Fiscal Year 2003; Final Rule, 67 Fed. Reg. 70847, 70849 (November 27, 2002).

The current fee schedule is accessible from: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after January 1, 2003 (or mailed with a certificate of mailing on or after January 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 11 March 2003 has been entered.

Allowable Subject Matter

2. Claims 1-9, 11, 39-40, 12-23, 32-35, and 43-45 (to be renumbered 1-31) are allowable over the prior art of record.

The examiner's statement of reasons for allowance is basically the same as indicated in the Office Action dated 03 November 2002 with the addition of claim 44:

The prior art of record fails to teach or render obvious a method of assembling a stacked microelectronic device assembly and the resulting device having all exclusive limitations as recited in claims 1, 12, 32, and 44, including a lead frame, a microelectronic device, a releasable support, and an encapsulant, characterized in that:

the encapsulant is defined by the releasable support, the microelectronic device, and the lead frame;

an upper surface of the encapsulant is aligned with the upper surface of the lead frame;

and that either:

Art Unit: 2818

for the stacked configuration, an electrical insulator covers a front surface of the lead fingers of the top lead frame and that a gap is defined between the two microelectronic devices; or:

L-shaped lead fingers as defined in claim 12.

Note that although not explicitly disclosed, the limitation: "an upper surface of the encapsulant is aligned with the upper surface of the lead frame" is inherent in the invention as claimed in claims 1, 12, or 32 ("filling the opening..." and "removing excess encapsulant deposited on front surfaces of any of the lead fingers" among other steps (claim 12) and for the stacked configuration (claim 1 or claim 32), the limitation is obvious: one can not electrically couple the two microelectronic device assemblies as disclosed if an upper surface of the encapsulant is not aligned with the upper surface of the lead frame. Similar note is made for the limitation "a gap is defined between the two microelectronic devices".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Art Unit: 2818

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Copies of the references are not being furnished with this Office Action per MPEP § 707.05(a).

a) U.S. Patent 6,498,393 to Fujimoto et al. discloses a stacked chip-size package wherein bottom contacts of the upper chip are in direct contact with the top contacts of the lower chip and there is no disclosure for an electrical insulating cover for the top contacts of the upper chip.

b) U.S. Patent 6,403,398 to Ohuchi et al. discloses a chip-size package having spot leads on a major surface wherein the spot leads are in contact with the chip through metal bumps.
